### Methodology

Instructor-led training provides students with hands-on experience to match job role requirements. From in-class demonstrations to hands-on-labs, Oracle University instructor led training provides a dynamic learning environment.

With Exceptional Instructors, Learning Oracle from Oracle accelerates adoption of technology.

#### Explanation of Concept

#### Live Demo by Instructor

#### Practice (Exercises and Case Studies)

For Hands-on training aid that software instances will be loaded onto the classroom computers that would create a virtual simulated Oracle Application environment. This would enable the students to get a dynamic real-world feel into an Applications system. As per Oracle guidelines, each training can have only 16 students.

## 11i Clinical - Oracle Clinical Rel 4.5 5 days (40 hours training)
